Suggestions to the Free and Independent Electors.

Gentlemen, you must have observed that
a time of excitement always gives people
special facilities for making fools of them-
selves. The excitement caused by sending
our troops to South Africa opened a wide
field for the exhibition of folly, and some of
our people took a lively advantage of the
situation. The opportunity afforded for the
exhibition of folly by religious excitement
is unique, and is always improved. A gen-
eral election may get farish such rare op-
portunities as religious excitement furnishes,
but it does fairly well. During the next
few weeks the electorate of this Dominion
will have a fine chance to show the amount
and kind of folly let loose by the Canadian
people when they are about to have their
moment of sovereignty. Canadian people
are, as a general rule, wise, but like all
mortals, some of them do some things in a
time of excitement that are rather otherwise.

One of the wisest things you can do, gen-
tlemen, is to neglect your own business
entirely during the excitement, and run
round like a madman. Go to a political
meeting every night, and stand around and
talk politics during the day.

Do not fail to spend any little money you
may have. Your wife may need a fall dress
at your children may need some little
things for winter, but you should raise your
mind above such sordid considerations and
fix them on the party. When the excite-
ment is over the party will, of course, re-
imburse you for your outlay. You know
they always do this. Political parties in
Canada have always been noted for gratitude.
Therefore throw your money around gener-
ously.

Be sure to quarrel with your neighbors of
the opposite party. They may have been
your neighbors for many a long year. Some
of them may have nursed your sick and
ministered to the wants of your dying, but
what signifies all that when the political
issue is at stake? You are to fight. The boss
must be obeyed. They are such pure, dis-
interested, high-minded, patriotic men that
they would shoot you.

Never, even in a moment of forgetfulness,
forget that you are a member of a political
committee or other meeting is over at eleven
o'clock, as it ought to be, stand around and
talk until one or two o'clock in the morning.
If you can tempt any hotel-keeper to break
the license law by sending liquor at that
hour, so much the better. Why should a
man so deeply interested as you are in the
making of good laws for the country, hesi-
tate to break the laws already made?

Break down your fence of respectability and carry
the fight into the school, the church, the
social circle, into business, and into every-
thing else. Extend your line of operations
as Roberts used to do in South Africa. In
this way you may win the reputation of be-
ing a broad-minded citizen.

Cling to the belief that the great leaders
and the local bosses are deeply interested in
your personal welfare. If you are a Grit
always remember that the Laurier Govern-
ment stands ready to do almost anything
for you. If you are a Tory never forget
that Sir Charles and Foster and Hugh John
he awake at nights worrying about your in-
dividual and family interests. If you will
serve you to spend money in the elections
that should be spent on your wife and child-
ren.

Believe everything said and written by
your own party. Swallow it down with a
swim. Carry out seriously your capacity
for swallowing things. You may need all
your capacity in that direction before the
elections are over. Ask your wife your rights
as a Briton never thank for your self. Show
respect. Avoid facts. Despise logic.
Secure freedom. Be a fool.

When you go to meetings shut your ears
tightly against everything said by your
opponents, and swallow everything said by
your friends. Close your mouth, however
wide they may be, and how your opponents
no matter how well they may speak. What
is the use of spending millions on education
in this Dominion if people insist on doing
as their own thinking?

A general election gives citizens a rare
opportunity of showing how little some of
them know about the practical side of po-
litical affairs. Some good pastors exhibit
their flower on the Sabbath before polling
day to vote for none but good men. How a
cheered political manager must laugh in
wardly at such exhibition! The candi-
dates, usually only two, are in the field at
last date and color are chosen. Most just
one for such men as are recommended, or not
vote at all. If both candidates are bad, or
only middling, the electors cannot vote for
a good man no matter how hard they try.
And yet the pastor frequently goes a step
farther for a good man. If it is a minister or
any other good man who has made his influence
in politics he must use that influence in
getting good men in the field. In urge
people to vote for good men only when there
is no good man to vote for brings the minis-
ter into contempt.

The Hon. G. W. Ross put the point well
the other week in an address at McMaster
Hall, when he urged the electors to reject
themselves in the nomination of candidates.
If they do not interest themselves in the
matter their further interest is of little use
in a majority of cases. If one of the candi-
dates is undoubtedly a bad man, and the
other undoubtedly good, an elector in a
season before polling day may be of some
use. In other cases it can do no earthly
good. You cannot run for a good man if
you are not on the ballot. Remember to
vote Westminster.

The Value of Good Eyesight

In many instances is not appreciated until the vision is impaired,
whereas the sight may be preserved indefinitely, by having the eyes
carefully and accurately fitted with glasses which could be worn
extraordinarily in cases where the eyes are overworked and become
easily tired.

Penny Wise and Pound Foolish

Is a poor policy to pursue in the treatment of the eyes. No
amount of money can repair the loss of eyesight. When
the system becomes run down a long while, often the eyes are
the first organs to give way under the strain.

Do not buy cheap pair of glasses without first having your
eyes tested. Glasses that do not suit your eyes do more harm than
any amount of overwork. Have each eye tested by an experienced
optician, and then the glasses you get will be suitable for your case.

A Perfect Fit

Is necessary to ensure clear sight and comfort. I am agent for the
famous B. Laurence glasses, and have the biggest stock of lenses
in the Territories. Can put lenses in any style of frame—to suit
any shape of face. I guarantee a perfect fit or no charge. Call

LAY DOWN ARMS.

COMMANDANT MULLER'S BURGHERS SURRENDER.

A Commando Caught in an Ambuscade by General Bethune's Men—Sixty are Killed.

London, Oct. 17.—Lord Roberts reports from Pretoria as follows: Mahon, commanding the mounted troops, successfully engaged the enemy on Oct. 13, but our losses were severe, three officers and eight men being killed and three officers and 25 men wounded.

Pretoria, Oct. 17.—Commandant Muller, with a number of burghers, has surrendered to the British in Standerton. The remainder of the commando, it is said, intended to hold out until yesterday, when they would also surrender if they were not joined by a large force of Americans, who, it was said, would arrive on that day to aid them. The Boers have burned a number of farm houses in the Standerton district belonging to Englishmen. Commandant Erasmus is coming in to arrange terms of surrender. General Barton and Clements have surrounded a commando on Zwart Kop and it is expected that the whole force would be captured. The British at last reports were shelling them, and killed and wounded a number of them. Some prisoners had been taken. General Barton and Clements fought for three days to drive the Boers into the position they are trying to hold.

At a meeting of the executive committee of the Johannesburg Caledonian society, it was resolved to apply to the military authorities for permission to raise a regiment to be known as the Transvaal Scottish volunteers.

The men of the colonial regiments have been given the option of receiving their discharge or taking a three weeks' furlough, after which they must rejoin their commands. If they choose to take their discharge they will lose certain emoluments. About forty members of the Imperial Light Horse have signified their intention to take furloughs. The others will take their discharge. The volunteer companies of some of the regiments are beginning to leave for home.

Lord Roberts has issued an order announcing that Gen. Sir Redvers Buller has relinquished the command of the Natal force. In the order Lord Roberts thanks Gen. Buller for his services and says that his ability and great success caused the collapse of the Boer army in the eastern part of the Transvaal.

A train has been derailed at Kaah river and three persons were killed in the accident. The engine and two of the railway at Vrakfontein. They fought a small force that was sent to repair the line, killing several and wounding a number. Some others were taken prisoners. The rifle brigade is proceeding to clear them out.

Cape Town, Oct. 17.—The British recaptured Roonhof, near Kimberley, Oct. 14, unopposed, and captured 50 Boers.

Durban, Oct. 17.—Near Vryheid, a Boer commando was taken in an ambuscade by Bethune's mounted infantry. The Boers, losing 400 killed, 35 wounded and 45 taken prisoners.

London, Oct. 17.—The Daily Express publishes this morning a special article dealing with the contracts which America is likely to secure to rebuild railways in South Africa, through the energy of Louis Dreyfus, the Canadian, who gives full details as to the way in which the ground was prepared before him for securing the contracts.

Brussels, Oct. 17.—The Transvaal agency has received a dispatch from Lorenzo Marquez continuing the account of the capture of Mr. Kruger on board the Dutch warship Coldland.

ARKANSAS OUTRAGE.
Hot Springs, Ark., Oct. 17.—A father, mother and four young children were blown to atoms last evening at Solis, Montgomery county, 14 miles from Hot Springs. While the family was at supper their home was wrecked by an explosion of dynamite.

The unfortunate people were Jeff and Maggie Jones and their children, ranging in age from six years to four months. It is believed that a dispute over a homestead claim prompted the outrage. The county officials wired last night that they were close on the track of the guilty persons.

GORDON WAS IN OMAHA.
Hosmer, Man., Oct. 17.—Walter Gordon, the suspected murderer of Charles Daw and Jacob Smith, sent a letter to his hired man, Jackson, last week from Omaha. Jackson told Jackson to go in and look after the farm and to pay no attention to what the neighbors had to say, and if he got any dinners for Daw not to contribute them, as he had paid back up. He also instructed Jackson to go to Detroit, Briss for his groceries, and Haines and Burgess for his meat, as his credit was good at both establishments.

When he was back from the north two years ago he had some gold and prospecting, but he had no money and no one was prepared for his return.

At Detroit he tired of travelling in ordinary trains and took the best and largest car he could get at \$500 a week, coming long and stopping at Niagara Falls and New York. Sufficient For the Summer.
"Will you be sure?" he murmured to her under the lamp of moon.
"I'll be sure you'll find me," she answered, and he was sure she would find him.
He Modified It.
"Sir," she exclaimed, "do you mean to say that I am going from a husband?"
The advocate of the theory of evolution looked at her pretty but indignant face and saw that it was up to him to back out as gracefully as might be possible.
"Well," he said, "possibly you never spring from a monkey, but I'll bet you would if one came upon you suddenly in the dark."
And yet they say men of science do not know how to smile cheerily.

OUR LOCAL CANDIDATES.

R. S. Lake is advertised to address a meeting here on Monday the 29th inst. We trust that Mr. Douglas may arrange to meet Mr. Lake and discuss the questions of the day. The late member was elected as a Patron but had not been in Ottawa long before he became a Liberal. His so-called independence was forgotten and in only one instance are we aware of his running counter to the government, viz., in connection with his elevator bill. It was then that Sifton's cold steel settled him and his bill. His rage knew no bounds and he publicly condemned Sifton for killing the bill. Yet the same man is again a candidate, this time as an avowed Liberal for whom the same Sifton has spoken in East Assiniboia.

Mr. Lake has pledged himself to support government ownership of railways. Where does Mr. Douglas stand? He is apparently following the dictates of Hon. Clifford Sifton whose organ is the Free Press, the well-known organ of the C. P. R.

Many Liberals are thoroughly dissatisfied with Mr. Douglas' stand on Prohibition. In supporting Mr. Parnelle's amendment declaring the plebiscite vote insufficient for enacting prohibition he played into the hands of the anti-temperance people and helped to shelve the question and it is immaterial to us whether in doing so he voted for or against the government. He pocketed his principles by so doing and temperance men are not forgetful of his betrayal.

His attitude of servility toward the Liberal government is displeasing to many Liberals and former Patrons alike.

One of the prominent issues in the last election was the tariff question. To-day that issue is practically dead and consequently there is no dividing line between the two candidates on the matter.

We accepted Mr. Douglas' promise in 1896 to be independent, we have therefore as much right to accept Mr. Lake's in this campaign. Mr. Douglas failed to keep his word and if Mr. Lake is elected and fails to keep his word, he will be justified in opposing him. In any case he deserves as fair treatment as Mr. Douglas received in the last campaign.

BETRAYAL BY THE GOV.
ERNMENT.

In our last issue "Elector" finds fault with our article on "Some Good Acts" of the Liberal government, accusing us of being over-zealous in making out a good case for the government. Particular attention is paid to the preferential tariff. He goes on to quote H. H. Cook, of East Simcoe, re the promises made by the Liberal leaders previous to 1896 on this question.

"Elector" would leave us to believe that because the government did not fulfil the promise therefore the measure introduced did not constitute a good act. We think differently. We do not deny that many pledges have been broken and are as ready as anyone to find fault with them for their deception, but in fair play we believe in acknowledging the good they have done. In that article the last paragraph read:

"Some of these acts are not all that could be desired but they are in the right direction."

That is our view still, and it applies to the preferential tariff. Laurier, according to Mr. Cook, failed to keep his promise to send a Commission to Britain to try to secure mutual preferential trade. It is, however, acknowledged even by Conservatives, that the measure introduced is beneficial. The objection is that it is not mutual. Then the question arises, can the British government be induced to co-operate? It is our firm conclusion that they cannot. Free trade is too firmly established there. If we cannot get all we want let us be content for the present with what we have. "Half a loaf is better than no bread."

NOTES.

A despatch to The Globe says Douglas is certain of re-election. We are not so sure of that. He may meet with some more "cell steel" on Nov. 7.

Mr. H. H. Cook's arraignment of the Liberal government loses half its value in the light of his statement that \$10,000 was too much to pay for a senatorship. If Mr. Cook was offered a senatorship for that sum he should have published it then and there. If he can prove his charge, we hope the people of Canada will resent the act of corruption. In the meantime we await his proofs.

Ian MacLaren.

Everybody has heard of the "Bonnie Brier Bush" and of its famous author Dr. John Watson, or as he is better known, Ian MacLaren. On a recent visit to this country, this great man said in Cincinnati, "The greatest agency for good in your country, as I see it, is your Sunday-school." This is the verdict of a wise observer who is not an American citizen, but sees America through the eyes of a foreigner. The judgment is just, however, for the Sunday-school is doing more for America to-day than all the laws on her statute books. The International Sunday-school convention, seeks to promote through the State and Provincial auxiliary organizations, the interests of all Sunday-schools of all denominations. Circulars explaining the magnitude of this great work may be had for the asking by addressing Mr. Marion Lawrence, Toledo, Ohio Secretary of the International Convention.

Wide Awake.

From our own correspondent.]
Thinking is just about completed. Mr. Wm. DeWolf of Qu'Appelle, who has been working hard for the last week and has had the most time to think, has made up his mind. He will vote for Mr. Douglas.

Mr. McCreary, may be able to attend. Some are being taken to hold a debate in connection with the society at least once a month.

Miss Victoria Cripman returned to Tre-garva at week. She had been visiting her sister, Mrs. Blackstock, since July.

Mr. W. Weaver and Mr. E. Lindley drove on to Regina this week on business.

Mr. Ralph Harris of Tre-garva, paid a flying visit to this district last week and returned, no doubt feeling much better.

Although the Dominion election is so near, no person here seems the least excited. The prevailing opinion is that one party is six and the other is half a dozen.

Springbrook.

From our own correspondent.]

Mr. Jas. McLaughlin, of the Station, spent a few days in the settlement last week visiting friends.

Mr. T. Grigg visited Indian Head on Saturday last.

Political excitement is getting rather high here; this district will go almost solid for Douglas.

Rev. Mr. Laing conducted a thanksgiving service on Sunday.

Mr. DeWolf of Qu'Appelle, spent Thanksgiving Day in the settlement.

Our teacher took advantage of the holiday on Thanksgiving Day to wheel to Regina.

Your Lebert correspondent, finding himself in the awkward predicament of being covered, tries to avoid such by shifting his argument into an entirely different sphere from what was originally intended, and by his misrepresentation of facts and figures places himself in a more humiliating aspect than ever.

We should think any one pretending to discuss political topics would know that the price of Massey-Harris binder here is \$140 not \$150, and the statement that the same binder could be purchased in England for \$75 is entirely incorrect, despite the fact that the C. P. R. charges as much for freight up here as it costs to take it to England.

Again, your correspondent should have known that Canadian binders dropped from \$5 to \$4 in price on the advent of the Liberals into power.

Spencerville Splashes.

Threshing is the order of the day. Mr. Jas. Addison arrived home from Helena, Montana, on Monday evening, after an absence of two years. We are pleased to see him looking so well.

Mrs. J. C. Starr accompanied by Miss Edna Booth visited friends in Spencerville on Thursday.

Mr. A. Matheson, of Massey-Harris agency, passed through this district on business last week.

Mr. and Mrs. W. Bell, of Davin, Sundayed with friends in Spencerville.

Mr. J. G. Booth has completed his duties at Grimsburg and is now teaching in town during the illness of Miss G. Davidson. Judson is a splendid teacher and should never be idle.

The monthly temperance meeting will take place at Starr's Point on Friday evening. An excellent time is expected.

Correspondence.

Editor PROGRESS,

Dear Sir—In your last issue appears a short letter from Mr. W. R. Motherwell, of Abernethy, re Mr. Lake and that gentleman's alleged connection with the Grain Combine. As Mr. Motherwell's obvious intention is to clandestinely prejudice the farmers of this district at the last moment against Mr. Lake by making the mole hill of his being a member of the combine (which not one farmer in twenty cares an iota about, as Mr. Motherwell well knows) into a mountain, I would respectfully beg the farmers to consider whence this audacious demand comes from. Who is this leviathan who dares to demand demand, forsooth!—that Mr. Lake personally reply to his supercilious questions? Who is this high and mighty Mr. Motherwell who has the effrontery to demand that Mr. Lake, "as an aspirant for public honor, at once reply to these questions, over his own signature and affidavit?" Who is this poor tool of the party heeler who avows that a refusal on Mr. Lake's part to answer his impertinent questions will be tantamount to an admission that his elevator connections, like Mr. Connell's, are indefensible? Well, well. Verily such unmitigated audacity is worthy of its promulgator! Surely Mr. Motherwell, or rather, Mr. Motherwell's prompters, have over-reached the bounds of common sense in their pusillanimous endeavor to make our farmers believe that it would be a terrible thing for our future M.P. to be a member of a milling company. Truly the ignorance of some men is immeasurable.

Yours truly,
Helen J. K.

To the Electors

OF
Eastern Assiniboia.

GENTLEMEN:

Having represented the constituency for the past four years in the House of Commons, I think I may lay claim as a representative of an Agricultural Constituency to having kept the needs and development of our Canadian Northwest well to the front.

I accepted the nomination of a large and influential convention of Liberals and Independents last December, on the basis of my past record at Ottawa.

Realizing that the legislation of the present administration has been progressive, and in the interests of the community which I have the honor of representing, I am prepared, if re-elected as your representative, to give them an independent support in still further promoting the rapid development of our great natural resources.

Upon my well known record in the past, particularly in the interests of the farming population, I respectfully solicit your support and influence in the present contest.

I have the honor to be, Gentlemen,

Yours faithfully,
J. M. Douglas.

McDonald Hills.

From our own correspondent.

The snow birds are returning. So is winter.

Every person is taking advantage of fine weather in getting in the remainder of their hay. When finished there will be about 3000 tons in all.

Stock at this time of the year never looked better, cows with calves looking especially well.

There is very little talk of elections at the Hills as every person seems to be of the same opinion.

We are sorry Mr. Douglas and Mr. Lake did not give us a call.

The McDonald Hills correspondent to the Vilette seems to have run himself into a hornet's nest. We don't know why this should be.

I happen to be personally acquainted with that correspondent, having known him for years, and am prepared to state without equivocation that he is not a man to exaggerate or state falsehoods, and from past experience at the scales I am convinced that he was perfectly justified in warning the ranching public.

The Lord knows we have drawbacks enough to contend with from the time the calf comes until it goes on the scales to be weighed for export, without contending with careless or unscrupulous men.

Edgeley Echoes.

From our own correspondent.

The following is a summary of a letter recently sent by trooper Ed. Anderson, of Strathcona's Horse, to a friend in this district:

MY DEAR FRIEND.—I received your letter of May 17th on Aug. 27th, so it was over three months since I heard from you.

I have been sick since July 27, but I am nearly well again. I am well cared for here in the hospital, but I am longing to get back to the army and have some more fun shooting the Boers.

I have had some narrow escapes. Eight of us got within 100 yards of the Boers before they fired on us. They captured six and I had to make off for my life. The bullets were dropping around me like hail stones. The rifle was shot off my arm; also some of the horse's mane, but as I had a good horse I was not long getting away.

A few weeks after I was with a scouting party and we got within 50 yards of the Boers before we saw them. They wounded two and captured four. My horse was shot and fell on me in such a way that I could not get up. The blood from the wound was flowing on my face, so the Boers, thinking I had been shot in the head, left me for dead. When the main army came I was as safe as ever. We then had about four hours fighting but at last succeeded in driving the Boers off the hill.

I believe our lads have seen some hard fighting these last few days, and I wish I was with them.

It has been very cold at night lately and we have only two blankets.

I was hoping to get back for the Harvest Home, but I am afraid it

will be Christmas. Give my love to all inquiring friends.

Your loving friend,
ED. ANDERSON.

Howick, Aug. 30th.

Mr. Charley Bell has returned from Davin to visit friends in this vicinity, before returning to his home in the east.

Two of our popular young ladies, Misses Maggie and Clara Craig, left last week for Nelson, B. C., to join their brother James, who has located there. Many friends congregated at the station to see the ladies off, and to wish them a safe and pleasant journey.

Mr. Harrison, accompanied by his mother, have been visiting their numerous friends in this settlement for the past few days. Their home is in Regina.

Mr. and Mrs. P. McNaughton, of Springbrook, visited friends in Edgeley last Sunday.

We are pleased to state that Mrs. Alex. Scott is so far recovered as to be able to go out once more.

Do not forget the anniversary services in connection with the church, to be held early in November. Watch for glaring announcement in next issue.

Mrs. Elliot, of Springbrook and Miss Ella Carol, of Southport, visited this district on Thanksgiving Day.

The infant son of Mr. and Mrs. J. T. Craig has been very ill during the past week, but is now slightly better.

Mr. Pollock, of Wolseley, visited his daughter, Mrs. Thos. Gray, last week.

Mr. B. J. Brown and his mother, of Davin, visited Mrs. Goodwin last Saturday and Sunday.

Mrs. John Craig and Miss Ella have been visiting here for the past few days.

The following were in Edgeley recently: Mr. Scott of Plains, Mr. W. F. Matthews of Qu'Appelle, Miss Gray of Qu'Appelle and Mr. and Mrs. S. G. Howett of Egg Lake.

Loon Creek.

From our own correspondent.

Threshing is now completed, the general average being twenty bushels per acre.

The farmers are now busy disking.

Mr. M. Kemp and Mr. Robert Baxter were visiting friends in the north end of the town on Sunday last.

Mr. F. Adams took his first load of wheat to Indian Head on Tuesday last and returned Saturday.

Mr. Payne has nearly completed Mr. Proctor's house, which will be a credit to the district.

The young folks of Loon Creek have decided to hold a free ball and supper in the school house on Friday evening, Nov. 2nd. All lovers of the light fantastic are invited.

Territorial and General News.

It is feared that Alex. I. McInnis, a brother of the publisher of The Standard, was numbered among the 5,000 victims of the Galveston flood. He had been on a visit to his aged parents at Brookfield, P. E. Island, and was returning to Monterey, Mexico, where he did an extensive mercantile business. He was at Galveston about the time of the storm and nothing has since been heard from him.—Standard, Regina.

Mrs. G. H. V. Bulyea returned to Regina on Wednesday from a visit to Openagan Valley and Vancouver. Mrs. Bulyea had a very enjoyable trip of three months and returned very much improved in health.—Regina Leader.

The doctors of the town presented the new hospital with an operating table, the expressage on which, from Toronto, amounted to over \$30. On behalf of the medical men Dr. Wilson wrote asking that under the circumstances they be allowed a reduction in the charges. A reply has now been received from Supt. Ford, of the Dominion Express Co., stating that he has instructed the agent to deliver the table free of charge, for which consideration the medical fraternity and hospital directors are exceedingly grateful.—Edmonton Bulletin.

Sunny South.

From our own correspondent.

The last service of the season in connection with the Presbyterian S. S. was held last Sunday. The attendance, though not all that could be desired, has been fairly good. The kindness of Mr. Robinson in driving so far combined with his earnest preaching has been greatly appreciated, and we hope he may long be with us to minister to our spiritual needs.

The arrival of a boy at the home of Mr. H. Wilson has brought a ray of sunshine to that household.

Threshing operations are about finished. The yield is very poor about 3 to 5 bushels per acre on the average. Potatoes are a good crop and of large size here. The poor grain yield has not discouraged the farmers for preparations have been made for a larger acreage next year than ever.

J. R. Beach has purchased from H. Wilson the noted pacer "Tom" and great things may be looked for next racing season.

HE STEALS AWAY

PRESIDENT KRUGER TAKEN SECRETLY AWAY.

He Makes an Early Morning Exit—Afraid to Face the Influx of Refugees.

Lorenzo Marquez, Oct. 21.—Mr. Kruger was taken secretly on board the Dutch cruiser Gelderland at 5 o'clock this morning. This vessel will take Mr. Kruger to Holland. The reason given for Mr. Kruger's embarkation was that he feared the Boers here would attack him. The feeling of the refugees against Kruger for fleeing from the country is very strong. He left the governor's house in a hired carriage, accompanied by Mr. Haymann, the governor following in a private carriage. The party drove through the customs house and entered the port of the customs pier instead of from the passenger jetty. It is reported that the Gelderland will sail tomorrow.

London, Oct. 21.—Lord Roberts reports from Pretoria under date of October 18, as follows: "A party of Boers got into Jagersfontein on the night of October 16 and a fight ensued in the morning. The Boers lost their commandant and twenty killed."

Kelly-Kenny dispatched a column under Hughes-Hollis, which column should reach Jagersfontein today."

Lorenzo Marquez, Oct. 21.—The local railroad authorities have been instructed to hand over to the British all the rolling stock of the Netherlands railroad.

Pretoria, Oct. 20.—The Boers are daily tearing up portions of the railroad and cutting the telegraph and telephone wires. The repairing line-men cannot leave the garrisoned points without considerable escorts. The only remedy seems to be to corral all the burghers and deport them, as apparently none can be trusted.

DESERTED HER BABE.

Viridien, Man., Oct. 20.—Last night shortly after 12 o'clock Dr. Stevenson heard a rap at the door and thought that it was someone who wanted his services and opened the door. When, to his surprise, there was no one there. On going back in the porch he noticed a basket, and upon examination it was found to contain the body of a child. HONOR TO BULLER

HE RECEIVES A SWORD OF HONOR AT CAPE TOWN.

Defends His Strategy During the First of the Campaign—Facing a Situation.

London, Oct. 19.—In a speech returning thanks for the sword of honor Sir Redvers Buller made a spirited defence of his strategy. He said that he did not believe that any general had ever faced a situation so difficult as that which confronted him when he disembarked at Cape Town, without an army and with the hope of one for another seven weeks or longer.

I found Mafeking and Kimberley beleaguered, and the two main avenues across the Free State, Bethulie bridge and Norval's Point in the hands of the enemy. If I had waited for the army and then advanced on Bloemfontein, it would have been at least 12 weeks before I could have exerted any influence on the situation. Feminine Superiority.

Here is a little local story that illustrates the calm self-satisfaction with which the feminine mind asserts its superiority:

Lucy and George are children of east end parents. Lucy is 7 and George is 5. She has attended the primary department of a private school just four months. Here is an overheard conversation between the two:

Lucy (with a greatly pained expression)—Why, brother, anybody could tell you are only 5. You don't even know the difference between corn and wheat.

George (who hates to acknowledge his inferiority)—I do too. Wheat is—

Lucy (taking pity on him)—Why, George, you know well enough you don't know. Listen to me and remember. Wheat is wheat and corn is corn, and wheat grows in a wheatfield and corn grows in a cornfield, and don't you forget it.

Editor and Poet.

"I am afraid," said the poet to the editor, "that you don't exactly grasp the depth of the idiosyncrasy in my blank verse."

"Perhaps not," said the editor. "They may be beyond my mental reach."

"I think you wrong yourself," said the poet kindly. "Let me test the point. Here is a line at random: 'She swiftly passed him down the silent way, and in her path a subtle perfume lingered.' There, that doesn't seem confused to you, does it?"

"Not at all," replied the editor briskly. "That's easy. You are simply trying to say that a gasoline automobile went down the pipe."

"IT IS A GREAT PUBLIC BENEFIT."

—These significant words were used in regard to Dr. Thomas' Electric Oil by a gentleman who had thoroughly tested its merits in his own case—having been cured by it of lameness of the knee of three or four years' standing. It never fails to remove soreness as well as lameness, and is an incomparable pain-killer and corrective.

To Use on His Wife.

Dremer—Who was the poet who sang of "the charm that maketh woman-kind?"

Henpeck—I don't know. I wonder if a fellow could lay any of it anywhere nowadays.

Dremer—Any of them?

Henpeck—Of the charm that maketh woman kind.

Not the Cause.

"Do you think the sun spots have anything to do with the heat?" inquired the perspiring citizen.

A BACK NUMBER.

Why the Hare and Beauty did Gentleman Felt real.

"Sole-h-law of mine, old!" greeted the haid and louty old gentleman.

"As bright a young fellow as I ever knew. I loved him as though he were my own flesh and blood. I never got such a thrown down from the time I began to work at 50 cents a day to the present time."

"You always told me that he was a veritable Napoleon of finance."

"So I did, and so he is, and the old gentleman made a very artful reply to me. 'And I cheerfully bow to it, I must admit that. I already told you that I had told him that I loved him as though he were my own flesh and blood. I never got such a thrown down from the time I began to work at 50 cents a day to the present time.'"

"But what has he done? Nothing criminal?"

"Taken me at my word, the world will say. I'm going to retire. I'm out of the money. You know the factory in which I have my biggest investment and controlling interest?"

"Certainly. It is earning money and your salary as president is \$20,000."

Here the old gentleman groaned again.

"I went away for a vacation. What more natural than that my salary should vote my stock? I gave you authority to do so, and I've no doubt that the young man recalled all that I had told him. He elected himself president, chose his own board of directors and increased the salary of his position \$5,000 per annum. He justifies me when I take him to task and tells me I should have no cares for the rest of my life. I'm simply turned out to pasture. My, what a boy!"

Keating's Solvers.

The wounded British soldiers often amuse themselves during convalescence by knitting and doing similar work. At The Gables, Surbiton, England, which has been opened by its owners, Mr. and Mrs. Alfred Cooper, as a convalescent home for returned soldiers, one man knitted a pair of stockings for his baby in a day. Others knit for themselves and their wives, and a favorite article is a Berlin wool belt bearing the name of the owner, and that of the action in which he was wounded.

Little Meat For Children.

It is one of the greatest errors to give too much meat to children under 10 years of age. Their digestive organs are not equal to the demands made upon them by such heavy food. From carefully compiled statistics it is proved that children who are fed largely upon a meat diet are irritable, snappish and quarrelsome. The best foods for little ones are milk, custards, simple puddings, farinaceous food, fruit and vegetables. If there is need of a hearty meal, a lightly boiled egg is an excellent article for a child. Do growing children give soup, broth and steaks and occasionally a little bit of meat, finely shredded, with plenty of vegetables.

Social Progress is the new organ, published in Toronto, of the new party, the People's Party. It is based somewhat on the lines of Citizen and Country and deals with economic questions. The platform of the new party is given as follows: Direct legislation, proportional representation, public ownership of public utilities, compulsory arbitration, government banking, public employment for the unemployed, adult suffrage and prohibition of the liquor traffic. It will be seen that their aims are altruistic and if the farmers and laboring class included in its ranks will hold together the party will soon become a power in the land.

Lines on the Death of Miss Norma Melvor who died Oct. 17th, 1900, aged 14 years.

Ere Norma died, our pretty group
 Was happy and complete,
 And now, if she could but return,
 Our joy would be complete.
 She passed away so suddenly,
 We scarcely knew for days
 That we had lost her genial smiles,
 And all her pleasant ways.
 Her eyes outshone the twinkling stars
 They shied electric light,
 And from our hearts they oft dispelled
 The gloom of sorrow's night.
 Mourners never drooped her brow,
 Her voice was calm and clear;
 And all our hearts are aching now
 Because she is not here.
 But when we list to catch the lay
 The heavenly voices sing,
 We plainly hear her cheerful voice
 Chant praises to our King.
 And we shall meet her, by-and-by,
 To sing his praises too,
 When, one by one, we all shall die,
 And bid the earth adieu.
